

## Working Group Session 2:

**Which measures are relevant for the Baltic Sea region?**

**What are the key challenges to planning and implementing NWRM?**

- What are your experiences?
- How did you overcome those challenges?

**What have been the key benefits from implementing NWRM?**

- What are the lessons that need to be learnt from your success?

**What are the cost/benefit advantages of NWRMs over “traditional” water management measures?**

- How have you demonstrated these?

## Working Group Session 2:

**How could NWRMs be promoted to improve their voluntary acceptance?**

- Or is “top-down” direction essential to delivery?

**How effective are NWRMs as a means to deliver the different policy objectives of WFD, Floods Directive, etc?**

- How do NWRMs fit within the River Basin Planning process?

**What changes are needed in institutional set-up to help deliver NWRM?**

- Do regulatory issues compromise delivery?

## Work group session 2: Thematic Groups

**Agriculture: hall Victory (Dennis/Tamer)**

**Urban Environment: hall Aurora (Pierre/Sandra)**

**Forestry: hall Glory (Martyn/Juste)**
