

Breakout Session 2: Prompt Questions

What are the key challenges to planning and implementing NWRM?

- What are your experiences?
- How did you overcome those challenges?

What have been the key benefits from implementing NWRM?

- What are the lessons that need to be learnt from your success?

What are the cost/benefit advantages of NWRMs over “traditional” water management measures?

- How have you demonstrated these?

Breakout Session 2: Prompt Questions

How could NWRMs be promoted to improve their voluntary acceptance?

- Or is “top-down” direction essential to delivery?

How effective are NWRMs as a means to deliver the different policy objectives of WFD, Floods Directive, etc?

- How do NWRMs fit within the River Basin Planning process?

What changes are needed in institutional set-up to help deliver NWRM?

- Do regulatory issues compromise delivery?
